Re: Inadequate As-Built Plans for Permanent Undisturbed Drainage Diversion, Mountain Coal Company, Gordon Creek #2, #7 and #8 Mine, ACT/007/016-AM99A, Outgoing File

Dear Mr. Hansen:

For some time the Division has attempted to ensure that the drainage diversions at the Gordon Creek 2, 7, & 8 mine have been constructed properly. We have reviewed your December 1, 1999 submittal and have identified some concerns with those plans. While progress is being made it seems that at the present time we still do not have adequate plans for the mine.

The enclosed technical memo discusses the concerns and provides guidance as to what is needed. Please review it carefully. Revised as-built designs with supporting calculations should be submitted by no later than February 11, 2000 with the required C1 and C2 forms.

If you have any questions, please call me or David Darby.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock
Permit Supervisor
